11. The New York State pilot associations utilize Pilot Boarding Deficiency Report forms when a deficiency is found. The following reports from the previous three months have been provided to and reviewed by the Board (prior reports on file):

M/V SAKURA BELLE (Panamanian Registered Tanker, Built 2011) 13 February 2024: New York SHP Matthew Haley reported an improperly secured pilot ladder and damage to the ladder when the pilot boat pinched the bottom step.

12. REPORT(S) OF MARINE ACCIDENTS/INCIDENTS UNDER INVESTIGATION:

12a. MAERSK GARONNE (Singapore Registered Containership, Built 2003) 20 April 2024. While inbound in Ambrose Channel with SHP Captain Wyatt Smith at the conn, one shot of the ship's anchor slipped into the water. The anchor did not appear to be dragging and the vessel was turned back to sea with two tugs in attendance. The Coast Guard was notified. It was determined that there was an electrical issue with the controller on the anchor windless. Continued on the docket.

12b. M/V ANTWERP EAGLE (Marshall Islands Registered Bulk Carrier, Built 2015): 15 April 2024. While transiting outbound New Haven Harbor, under the conn of LIS/BIS pilot Captain Matthew Stevens, the M/V ANTWERP EAGLE lost main propulsion. It regained propulsion approximately 1-2 minutes later and the Vessel remained in the channel. Additionally, the port anchor failed to let go at the anchorage and the starboard anchor had to be walked out under power. The Coast Guard was notified and the vessel was safely anchored in New Haven North Anchorage. Continued on the docket.

12c. M/V ANTWERP EAGLE (Marshall Islands Registered Bulk Carrier, Built 2015): 5 April 2024. While approaching New Haven Anchorage, under the conn of LIS/BIS pilot Captain Christine Razukas, the vessel did not respond to astern engine orders. Captain Razukas was able to safely dock the vessel and the incident was reported to the Coast Guard Sector Long Island Sound. It was determined that the loss of astern propulsion was the failure of the hydraulic control system pump, which was replaced. Continued on the docket.

12d. M/V MSC ALDEBARAN III (Liberian Registered Containership, Built 2008): 4 April 2024. After undocking from Port Newark Berth 57 and approximately 100 feet off of the pier, the MSC ALDEBARAN failed to respond to a dead slow astern bell. Docking Pilot Captain Richard Wood was able to return the vessel to Berth 57 with the assistance of a tug. SHPA Pilot Captain Thomas Sullivan was on board but had not yet assumed the conn. The Coast Guard was notified. It was determined that a ship software issue caused the engine failure. Continued on the docket.

12e. M/V APL QINGDAO (Maltese Registered Containership, Built 2012): 5 April 2024. While outbound in the Kill Van Kull 45 minutes after getting underway the M/V APL QINGDAO experienced an engine room alarm. The Captain advised Docking Pilot Christopher Baker, who was at the conn, that the engine would have to be shut down to clear the alarm. Captain Baker called for tugboat assistance and the alarm was cleared and propulsion restored. With the assistance of tugboats the vessel proceeded to Stapleton Anchorage when there was another engine room alarm and loss of propulsion. SHPA Pilot Captain William Wood was on board but had not yet assumed the conn. The vessel was safely anchored. It was determined that the cause of the power loss was a malfunctioning fuel valve. No violation of the New York Navigation Law or the New York Codes, Rules and Regulations. No pollution or personal injury. The Board voted to close the case.

12f. M/V PORTO LEONE (Panamanian Registered Bulk Carrier, Built 2014): 10 September 2023. While under the conn of FBHRP Samuel Zapadinsky southbound in the Hudson River off of the Tri-City Yacht Club, the M/V PORTO LEONE received a call from the yacht club claiming that a wake hit their dock. The ship's Captain, chief mate, and Captain Zapadinsky investigated by observing the docks from the bridge wing of the vessel and saw no damage. At subsequent meetings, the Board continued to review the incident. At the 23 April 2024 meeting, the Board issued its Opinion and Order. Continued on the docket.

12g. M/V EAGLE TURIN (Singapore Registered Tanker, Built 2008): 5 August 2020. This incident involves the tragic fatality of FBSHP Timothy Murray resulting from a fall off a pilot ladder and onto the Pilot Launch AMERICA while boarding the M/V EAGLE TURIN at approximately 2230 upon its arrival at Ambrose Pilot Station. The P/L AMERICA then immediately proceeded back to the Pilot Boat NEW JERSEY (a three-minute transit) to pick up medical supplies, a stokes litter, and crew with paramedic training before departing for Staten Island. The U.S. Coast Guard, New York City Fire Department, and New York City Police Department were all notified. Crew personnel administered CPR and used the AED unit while proceeding to Staten Island. New York City Police Department Personnel were waiting at the Sandy Hook Pilot Base where Captain Murray was transferred to an ambulance and taken to Staten Island University Hospital.

After the incident, the EAGLE TURIN proceeded to anchor at the direction of the U.S. Coast Guard. On the morning of 6 August 2020, FBSHP Kevin Walsh piloted the vessel to Stapleton Anchorage where a further investigation ensued with the U.S. Coast Guard, SHPA, and Executive Director Garger. The Board was designated as a Party in Interest by the U.S. Coast Guard. At the 10 January 2023 meeting, the Board was updated on the status of ongoing litigation against the vessel owner arising out of the incident. At the 17 January 2023 meeting, the Board reviewed the Third-Party Complaint filed by the vessel owner against the SHPA. At the 21 March 2023 meeting, the Board reviewed the SHPA's Answer to the Third-Party Complaint. At the 9 May 2023 meeting, the Board discussed the Coast Guard's Report of Investigation. At the 23 May 2023 meeting, the Board discussed the status of the litigation. At the 5 July 2023 and subsequent meetings, the Board discussed the Subpoenas served on the Board. At the 3 October 2023 meeting, the Board noted the Confidentiality Order entered by the Court. Continued on the docket.

13. NEW YORK PILOTAGE WATER ISSUES:

13a. The Board has previously reviewed cruise ship pier allisions in the Port of New York/New Jersey and elsewhere. The Board has also reviewed 46 U.S.C. Section 8501 regarding the coordination of federal and state law requirements with respect to pilotage of cruise ships when the master docks the vessel and has noted incidents in Alaska where cruise ships were docked by the ship's master with a compulsory state pilot aboard. In light of the foregoing, the Board recommended that the SHPA work with cruise lines calling at the Port of New York to develop a joint training program that would improve communications between state licensed pilots and cruise ship masters. At the 28 March 2023 meeting, the Board discussed cruise ship dockings with NYSHPA President Captain James Mahlmann. Continued on the docket.

13b. The Board has previously advised the Army Corps of Engineers New York District (ACOE) of its concerns with the lack of visibility of large, unlit mooring buoys, especially during periods of darkness, located within certain designated federal anchorages in New York Harbor. Continued on the docket.

14. In view of several ship pilot ladder boarding accidents involving both New York and New Jersey State Pilots in the Port of New York, the Board of Commissioners formed a special Pilot Transfer Subcommittee. The Subcommittee consists of the Board President (Mercante), Executive Director (Garger), and members of the Board (Ahlstrom and Rowland). At the 22 February 2022 meeting, the Board reviewed the revised International Chamber of Shipping Industry Guidance on Pilot Transfer Arrangements. The New Jersey Maritime Pilot and Docking Commission also formed a Pilot Safety Committee to evaluate pilot transfer arrangements and issued its report on 6 November 2020. The minutes of the 21 December 2021 Board Meeting are incorporated herein by reference. At the 15 November 2022 meeting, the Board was advised that the IMO Safety Committee will open the SOLAS Convention for amendment with respect to pilot boarding arrangements. At the 17 January 2023 meeting, the Board reviewed the notice issued by the UK Maritime Pilots Association regarding a recent pilot fatality. At the 9 May 2023 meeting, the Board discussed the Coast Guard's Reports of Investigation for the EAGLE TURIN and the MAERSK Kensington. At the 16 May 2023 meeting, the Board discussed the article regarding the 5 May 2023 Japanese pilot fatality.
